Arabic 

English 

PROFILE

I am a software developer with two years of experience specializing in Flutter development. I have worked on mobile apps, desktop applications, and web projects. I began my career remotely with a business concept company based in Kuwait, and later transitioned to working from their office branch. My expertise lies in creating engaging and user-friendly applications using Flutter and other related technologies. I have a proven track record of delivering high-quality software solutions and collaborating effectively with cross-functional teams. With a strong foundation in mobile and web development, I am well-equipped to contribute to innovative projects and drive results. I am dedicated to continuous learning and staying up-to-date with the latest trends in the software development industry.
